Part Six

6.3b Comedy night

This is a great event to put on at any university as amateur stand up comedians are always keen to put on a show...if you know where to find them! Additionally you could get in contact with local comedy clubs - most will be happy to give their comedians more work. Here are a couple of tips:

- ★ Don't worry too much about how good the comedians are, even if a few of them are not funny that is part of the experience at amateur comedy nights and people will laugh anyway!
- ★ Give the comedians short sets. You have to make sure that the comedians are good if you are giving them more than 15 minutes.
- ★ If you don't think you have enough comedians to fill a night advertise the second half of the event as an open mike night and get the audience up on stage.
