## Equal Access Pledge

"Everyone has the right to education… and higher education shall be equally accessible to all on the basis of merit," Art. 26, Universal Declaration of Human Rights

Refugees and asylum seekers who are offered places in UK universities cannot take them up on equal terms with their British born peers because of inequality in fees, access to loans and permission to work.

This University supports the right to education and is committed to doing all it can to provide equal access on the basis of merit for UK students, refugees and asylum seekers.

**To ……., Vice-Chancellor**
**University of ……..**

**As students of this university we call on you to sign the Equal Access Pledge**
